About the Wilmington Grill...

Close to the banks of the Cape Fear River, an area rich in history, our stainless steel grills are built, with the exclusive seven sided top, and are shipped to dealers throughout North America.

All of our stainless steel gas grills are available for use with propane or natural gas. All models are built of heavy 304 stainless steel. The burners are cast stainless, making the grill an investment for a lifetime of trouble-free use.

These gas grills are called systems because of the ability to convert to a steamer, a gas grill smoker, or a barbecue grill.

Cape Fear Standard Features

Our all stainless steel gas grills are available in propane and natural gas models. Our grills feature an exclusive seven sided top and are made from heavy 304 stainless steel. The burners are cast stainless, making this gas grill an investment that will bring a lifetime of enjoyment.

- Made from heavy duty 304 stainless steel with cast stainless steel burners
- UL listed LP and Natural Gas Grills
- Peizo EZ light ignition

Our grills incorporate a flame inhibitor tray that traps sauce and meat juices, channeling them to a collector on the outside of the grill. They provide even heat distribution with two (2) 20,000 BTU burners* producing a temperature range from 250 degrees to over 600 degrees. Now you have the most versatile grill on the market allowing you to smoke, slow-cook or grill.
